

Clark Forklift Parts

Clark Forklift Part - Presently, there are over 350,000 Clark forklifts performing worldwide, and more than 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific components designed for 20 unique brands of forklifts and automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's recurrent effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants because this system is extremely economical and permits minimal use of resources. Developed to guarantee maximum efficiency, this system is designed to discover and acknowledge the most efficient methods for production facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the efficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines innovative product development and delivers superior customer support and service within the industry.
