

Forklift Spreader Bar

Spreader Bar for Forklifts - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader business all-around the world. They have been a devoted manufacturer of spreaders meant for numerous applications such as the trailers, handling of containers and swap bodies.

ELME presently employs over a hundred and twenty five employees with all engineering is done in house by means of utilizing all of the newest FEM tools and CAD systems. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the world.

The ELME product series offers spreaders meant for a variety of container and trailer handling operations. Several of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a huge array of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they made 1150 spreaders by means of using quality parts in order to ensure dependability and top standards. Major characteristics of ELME include design simplicity, market response and ground-breaking modular spreader concept.
